

What is Enhanced Client Billing for 3rd Party Logistics?

Open Sky Group Enhanced Client Billing for 3PLs enables real-time capture of billable activities performed within a WMS or other management system.

Enhanced Client Billing (ECB) assigns client-specific, contractual billing rates and automatically creates invoices.

Enhanced Client Billing is not only quick to implement, it also:

- Supports the ability to accurately calculate client level, cost-to-serve metrics
- Provides a clear audit trail for invoice reconciliation with clients, based on actual WMS activities
- Scales easily with cloud-based architecture and standard API communications

Benefits of Open Sky Group Enhanced Client Billing

MAXIMIZE REVENUE

- Eliminates manual data entry errors and/or billing omissions
- Captures billing activities automatically, supporting improved overhead utilization/cost and reducing revenue leakage
- Assesses client-level profitability via accurate cost-to-serve metrics and analytics
- Creates verified audit trail of billing events and charges, reducing potential credit settlements

IMPROVE EFFICIENCIES

- Provides flexible invoicing capabilities with as much or as little detail as desired, with the option to send immediately or at a scheduled time with the option to approve electronically

- Allows client cloning and transaction approval to be turned on or off by client
- Multi-lingual (base includes English and Spanish)

GAIN ADVANTAGES THAT 3PLS NEED

- Allows those operating on multiple WMS platforms to have a single, standardized billing system via its system-agnostic, cloud architecture
- Integrates to customer accounting systems
- Allows billing charges to be received from additional systems (i.e., timecards) and consolidated, then billed
- Uses effective dates to allow for smooth rate transitions
- Allows grouping of charge details in reports to make viewing totals by vendor and other criteria easier
