

Robotics and automation for warehousing

It's no longer a question of if, it's become a question of when will you implement robotics or other automation technology.

From goods-to-person and autonomous forklifts to kitting and sorting solutions, Open Sky Group can help you resolve your warehouse challenges like labor shortages and productivity issues as well as help you increase your fulfillment volumes and improve ROI and profitability.

The applications are virtually limitless for introducing robotics and other automation into today's warehouses, including:

- Goods-to-person
- Autonomous forklifts, pallet jacks, and tuggers
- Robotic piece picking
- Kitting and sorting
- Automated storage & retrieval systems (AS/RS)
- Wireless pick-to-light solutions
- Conveyance

Robotics and automation by the numbers

As an integrator of supply chain solutions, Open Sky Group is intimately familiar with the innerworkings of the warehouse and distribution center. Leveraging our extensive partner network, the powerful and intelligent solutions we offer create endless opportunities to advance your warehouse. Some common savings and increases experienced by users of automation and robotics include:

- Reduction of operational expenses by up to 70%
- Resolution of labor availability challenges
- Bolstering of facility throughput by up to 25% to 50%
- Reduction of capital expenditure using Robotics-as-a-Service (RaaS) solutions
- Increase in pick rates by 4-5x
- Achievement of 99.9% picking accuracy with certain technologies
- Recognition of 20% or greater ROI in as little as 6 months
